## Installing Studio update through our own dialog doesn't ask for restart

Agile Board

### Details

Type:	<input checked="" type="checkbox"/> Bug	Status:	<b>CLOSED</b>
Priority:	<input checked="" type="checkbox"/> Critical	Resolution:	Fixed
Affects Version/s:	Release 3.2.0	Fix Version/s:	2013 Sprint 22, Release 3.2.0
<u>Component/s:</u>	<u>Update</u>		
Labels:	None		
Sprint:	2013 Sprint 22		

### Description

When a user upgrade Studio through our combined update dialog, after it finishes it doesn't ask the user to restart. I'm not sure that the update will get properly applied without doing so. (for example the update contained some UI changes that didn't happen until I chose to restart).
